

## **Hearing technology on and working: how sensory integration strategies can help**

### **Amy Stephens**

Amy Stephens will be sharing information and ideas about how parents and professionals can use a Sensory Integration frame of reference to optimise communication opportunities with their children.

*Amy Stephens is a Highly Specialist Speech and Language Therapist and Advanced Practitioner in Ayres Sensory Integration. Amy is a senior rehabilitationist at the University of Southampton Auditory Implant Service, and particularly enjoys the Outreach strand of her work to support Deaf children and adults (and their parents, teachers, and carers) across the South West of England.*

*Amy also has an independent consultancy practice supporting schools and charities in using an SI frame of reference across the day; and teaches and mentors Speech and Language Therapists and teachers in NHS and Educational settings. Amy is part of the national lecture team for the S I Network of UK and Ireland, and is currently helping to develop the online training courses for the Network.*

### **Deafness and Autism:**

Can children benefit from hearing technology?
